

## IGTR & AUTHOR Gripr Success Story

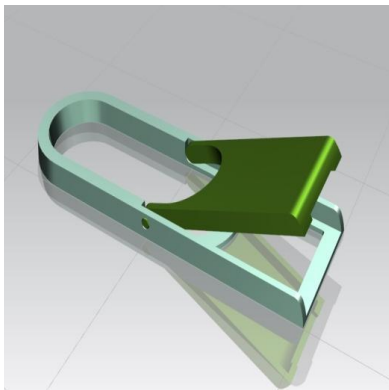

[Mr. Ronak Jangid](#) from Gandhidham small town in Gujarat and after completing his 12<sup>th</sup> board exams took up Diploma in Mechanical Engineering and by first month he felt this is not what he aspired for and left the studies half way.

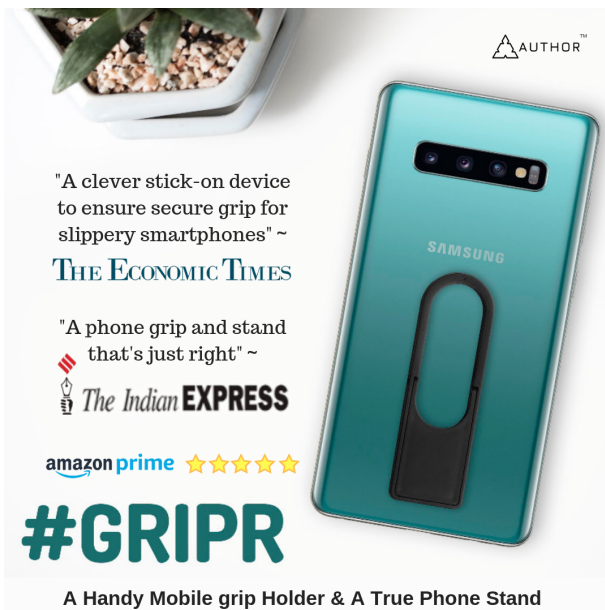

Born engineer with a keen interest in design has lots of IDEAS and has made many Proto products in his backyard engineering shop place and to take them further he Formed Company named [AUTHOR FORM](#).

Personally faced problem using big screen phones with one hand. Not satisfied with the aesthetics and functionality of existing products in the market, he started working with several designs and concepts. With Lot of Aspiration and hope he came and approached Indo German Tool Room Ahmedabad.

Indo German Tool Room Ahmedabad took up the project and reviewed the designs and 3D models took necessary steps by optimising and engineering to take it forward. Based on the inputs IGTR made 3D prototypes and tested them.

IGTR Ahmedabad suggested Plastic material for this product. Also various grade of ABS was trial to get actual quality Aesthetic of product.

This Product is Patented by customer and now it in huge demand in the market. This product is Hot cake on Digital platform and Mr Ronak Jangid have listed this on [Amazon](#) and [Flipkart](#).

Gripr has been featured in some of the leading newspaper like [The Economic Times](#), [The Indian Express](#) & [Divya Bhaskar](#)

This product is also available in retail markets and the demand is growing day by day. Mr Ronak is working with IGTR on new version of this gripper and more new products like laptop-stand & height adjustable sit-stand desks, which are under Design stage and soon will be launched.
