**Name of enterprise** : M/s. Shree Ambika Industries, M/s. Motomake Automotive, M/s. Kalanabh Industries

An aeronautical engineer with the dream to become an entrepreneur and to develop his entrepreneurial skills was searching for an esteemed institution. His search came to an end with Indo German Tool Room-Ahmedabad(IGTR), where he got enrolled in "Certificate course in Tool Technology" in year 2011. He was always fascinated with automobile industries and wished to work to develop and support the industry. He got trained in IGTR for 2 years and learned about various tools, technologies, machining operations practically. After completion of his course, he got placed in a company named "Technocrats Industries" in Ahmedabad itself, where he worked for 2-3 years.

After getting relevant knowledge and experience from the industry, he picked his first step towards his dream and started his first enterprise named "Shree Ambika Industries" with 4 nos. employees in 2015. He was very ambitious towards his dream and with his hard effort and passion, he started another enterprise named "Motomake Automotive" in 2016. He was not a kind of person who got satisfied so easily, He started again his another enterprise named "Kalanabh Industries" in 2018.

Today, his all three enterprises are supporting the automobile industries with the production and machining work. At present, his turnover in accumulation has reached up to approx. 12 Cr. More than 50 nos. staffs are working to support his smooth operations and his major customers are Ashapura Engineering, Inductotherm, KHS, Dresser rand etc.

In the Covid-19, when the automobile sector was falling down, it was a big challenge to maintain the expenses of labour and factory but he paid his workers and staff on time even in the down fall of business due to Covid-19.

With his high ambitious dream and ethical practice, he develops himself and continuously taking part in developing the society and the Nation.
